As Election Season Nears, Voters are Still Concerned About Election Integrity

FROM OUR CHAIR

“We in America do not have government by the majority. We have government by the majority who participate.” Thomas Jefferson

That quote couldn't ring more true today as we are facing an election which could turn the tide in either direction. Give up, stay home and believe the lie your vote doesn't matter; or, vote and take everyone you know with you because it's that critical. We are fighting a spiritual war and part of our war is overcoming the apathy and lies being fed to us. Fight by exercising your right to vote because our life and the lives of our children depend on it.

Did you know our liberal commissioners court required the elections department to expand early voting to 51 sites? They cry, “voter suppression”. They want a polling site in our jail and on every college campus. Elections have consequences and we are suffering the consequences of a liberal county judge and county commissioners. Vote all the way DOWN THE BALLOT to elect all our great conservative candidates. Your future depends on it.

Lastly, I hope we all understand the importance of a law enforcing DA and

Judges. We have rising crime and lawlessness in our streets. Illegals defecating in public. Don't believe me? Take a stroll down San Pedro. Our city officials have welcomed those crossing the border, have given them 3 days in a shelter then they are on the streets. Criminal.

DOWN THE BALLOT
Melinda Roberts
