

NEWS

NEWS FOR THE ENGAGED CITIZEN!

Letter from the Chair

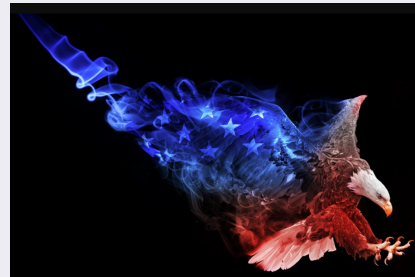

First and foremost, we want to thank all our incredibly qualified candidates who ran in this election. Because of these quality candidates, there was a ground swell of volunteers jumping on board to help; and our hope is, these candidates will run again because we need them to lead this city into greatness.

This election was tough across the county. We took 75 calls with various reports of voting machines printing blank ballots, many machine failures, votes flipping, etc. The poll watchers and voters were our eyes and ears during this election taking notes and reporting many violations. We've documented problems and will continue to collect Affidavits, all with the goal of getting rid of electronic voting.

We, here at Bexar County Election Integrity, do not feel hopeless after this election. We're extremely disappointed many of our candidates weren't elected; however, we must stay focused and in the fight. There were nearly 1M undervotes in this election, which is astonishing, so we have great concern, especially when there were reports of pages and candidates missing from the ballot. We continue to identify gaps in the current law and we'll be working with our legislators to draw up new bills for the upcoming legislative session so be on the lookout for requests to contact your representative to support the election reform bills.

**** CALL TO ACTION ****

VERY IMPORTANT: If you were a witness to something during the election, which didn't seem right, please consider helping us by filing a complaint to the Texas Secretary of State, HAVA Title III or by calling BCEI to report. We want to put Bexar County Election on notice because this election chaos is unacceptable.

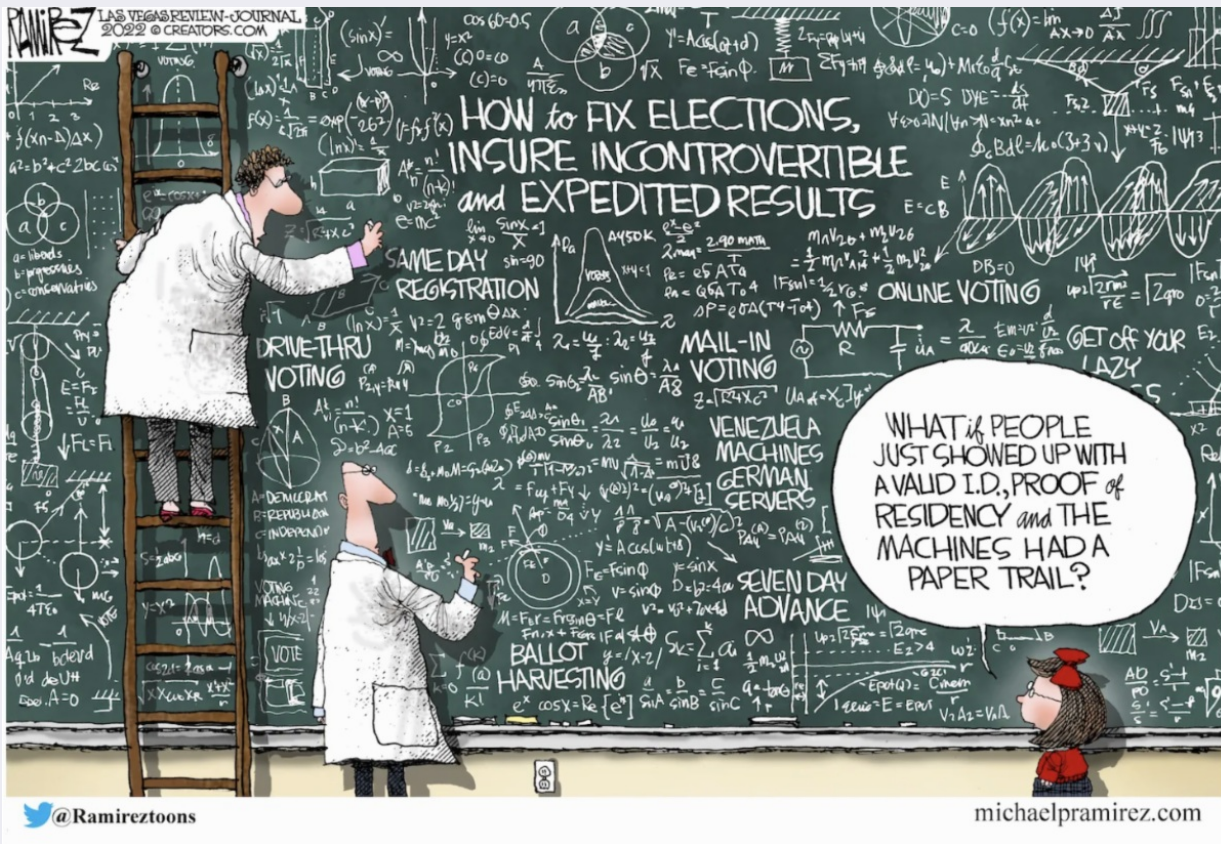

[**SOS Complaint Form**](#)

[**HAVA Title III Complaint**
Help America Vote Act](#)

Although the Secretary of State has no authority to order a new election, change an election result, or conduct a criminal investigation. Complaints are documented and can be used for filings.

Almost every part of the election process relies on election systems-in short, most everything that has to do with the election system and training of PEO (Polling Election Officials) falls under the authority of HAVA. Your complaint must list a clear and concise description of each alleged violation of the Title III of HAVA. The complaint may name witnesses to the alleged violation and may include documentary evidence.

Election Fun

Even if our Watchers aren't in fatigues and carrying AR's, we feel we're offering the same kind of protection and creating a deterrence to nefarious activity.

BCEI thanks every poll watcher who gave of their time and energy to give oversight to our

polling sites. Some of you drove miles only to find the site had been closed, others of you spent hours in sites and some, with a moment's notice, ran to troubled sites to document what was going on. It was truly a herculean effort and we are truly grateful. We hope to see you again for our May election.

****Getting Rid of Electronic Voting****

Why Texas Elections are Not Safe or Secure

The lack of accuracy, transparency and accountability in the current Texas election process means it would be impossible to present sufficient evidence in a court of law to prove that anyone elected to public office was actually the intent of the majority of those who voted in their election.

BCEI isn't going anywhere. Wish we could say the same about the RNC. Arizona is a perfect example of why we ask you to take a stand now. File your complaints and get us your Affidavits. Ask us for help if you saw something.
